Hiring Manager

Dear Hiring Manager,

I am writing to express my interest in the Software Developer Internship. As a third-year Application Development student, I bring a solid foundation in Java complemented by hands-on experience in database management. My academic journey has equipped me with strong software engineering principles and the ability to design efficient, user-friendly applications. Notable projects include a Java-based capstone featuring GUI development, database integration with JDBC, and real-time communication using Java Sockets, as well as an ongoing real-time auction website and a student collaboration app.

These experiences have refined my technical and teamwork skills, enhanced my problem-solving abilities, and deepened my passion for innovation and continuous learning. I am particularly excited about the opportunity to contribute to the world tech innovation and forward-thinking initiatives and cutting-edge technology. I would welcome the chance to discuss how I can add value to your team. Please find my resume attached, and I look forward to the opportunity for an interview.

Sincerely,

Junior Mageza
